My Beloved Brontosaurus What is the Turin Shroud? When were the Pyramids built? Why did the dinosaurs die out? How did the Earth take shape? With questions like these, says Chris Turney, time is of the essence. And understanding how we pinpoint the past, he cautions, is crucial to putting the present in perspective and planning for the future.

Papers Read at the Royal Institute of British Architects This volume presents a wide range of pieces from a world-class Latinist which displays both his diverse interests as a scholar and his consistent concern with Augustan texts, their language and literary texture. The range of articles, written over more than three decades and including one previously unpublished piece, covers the same connected territory - largely Virgil, Horace, and elegy. R. O. A. M. Lyne's consistent approach of close reading means that the articles form a coherent whole, while his compelling style as an engaged literary analyst ensures that these are not dry or forbidding pieces.

Abstracts of Papers New York Times bestselling author Laura Griffin "delivers another top-notch thriller" (RT Book Reviews) in her beloved Tracers series, about a leading forensic anthropologist who uncovers eerie clues in a high-stakes case that threatens to deliver her to the doorstep of a cold-blooded murderer. When local rock climbers stumble upon abandoned human bones in a remote Texas gorge, Sara Lockhart is the first to get the call. She has a reputation as one of the nation's top forensic anthropologists, and police detective Nolan Hess knows she is just the expert he needs to help unravel this case. Although evidence is scarce, Nolan suspects the bones belong to a teenage climber who vanished last summer. But as Sara unearths strange clues, she finds chilling similarities to a case from her past—a case that now threatens to rock Nolan's community. While Sara digs deep for answers, the stakes rise higher as another young woman disappears without a trace. Investigators work against the clock as Sara races to discover the truth, even if her harrowing search brings her face to face with a stone-cold killer. With her signature breathless pacing and suspenseful twists and turns, Stone Cold Heart demonstrates why "Laura Griffin never fails to put me on the edge of my seat" (USA TODAY).

Stone Cold Heart

Sticks, Stones, and Broken Bones Listen my friends, to your heart. What is it telling you? Go ahead and dream a little dream, see where it takes you. You'll be surprised at the turn of events with every page, each new friend or what happens to that nasty evil guy. Take that chance and let your heart take the lead, I dare you. Say those things that burn in your heart, that have on occasion been blurted out. Be that hero and go to places where you fear to tread. Need someone to go with you, there's your buddy right beside you, sometime through thick and thin.

The Bush Crime Family

Bones, Rocks and Stars The French police call on the Skeleton Detective when a dog digs up some human bones: “Terrific” —Publishers Weekly Les-Eyzies-de-Tayac is known for three things: pâté de foie gras, truffles, and prehistoric remains. The little village, in fact, is the headquarters of the prestigious Institute de Préhistoire, which studies the abundant local fossils. But when a pet dog emerges from a nearby cave carrying parts of a human skeleton—by no means a fossilized one—Chief Inspector Lucien Anatole Joly puts in a call to his old friend, Gideon Oliver, the famed “Skeleton Detective.” Once Gideon arrives, murder piles on murder, puzzle on puzzle, and twist follows twist in a series of unexpected events that threaten to tear the once sober, dignified Institut apart. It takes a bizarre and startling forensic breakthrough by Gideon to bring to an end a trail of deception thirty-five thousand years in the making. Skeleton Dance is the 10th book in the Gideon Oliver Mysteries, but you may enjoy reading the series in any order.

Out of Stone Thin on the Ground: Neandertal Biology, Archeology and Ecology synthesizes the current knowledge about our sister species the Neandertals, combining data from a variety of disciplines to reach a cohesive theory behind Neandertal low population densities and relatively low rate of technological innovation. The book highlights and contrasts the differences between Neandertals and early modern humans and explores the morphological, physiological, and behavioral adaptive solutions which led to the extinction of the Neandertals and the population expansion of modern humans. Written by a world recognized expert in physical anthropology, Thin on the Ground: Neandertal Biology, Archaeology and Ecology will be a must have title for anyone interested in the rise and fall of the Neandertals.

The Blackfoot Papers - Volume Two: Pikunni Ceremonial Life If you think evil had been put to rest with Halocline, john g rees’ 2nd book of his ‘anoxic zone’ series, think again. Evil does not sleep, nor take a break as men do. It waits, but it is not still. Patient, but never at peace. It waits until men take their break on vigilance. Then the tendrils of greed, lust, power and jealousy insinuate themselves within the fecund soil of the unguarded mind. That is just the beginning. Evil does not want to be forever on the inside, just behind the eyes. No, it wants to live among men, feed on their fear. It wants out! Sechra was just a child when she witnessed man’s cruelty in the extreme. Her young mind became black with hatred for what had been done to her family and people. Now this is what you call fertile soil. In a moment of childhood ignorance, she embraced the seed of evil in an effort to fill the void of all she had lost. It sprouted. Grew. A dark hand guided her, unseen behind Sechra’s sparkling eyes. Years of practice and natural ability rendered the girl a master stonecutter. No one noticed the sinister nature within her sculpture, least of all Sechra, until it was too late. Then all hell breaks loose. ‘Out of Stone’, john g rees’ 4th horror novel, once again grabs hold of the reader by the neck and brings them to places they’ve never been. And never want to be. That’s the fun of it! Out of Stone, takes two characters from his earlier
award winning anoxic zone series and gives them headline roles. They fulfill them rather tremendously; bringing us into worlds we did not know existed, showing us horrors from theirs and other lives that immediately become our own. We follow Sechra, who was a peculiar little girl as Halocline ended and just a child when she witnessed man’s cruelty in the extreme. Her young mind became black with hatred for what had been done to her family and people. Her Aunt Karuna was there more often for the girl, as her daughter Riana & Vlad, her husband, the Voivode, were more involved in the workings of their people and land in Romania. Karuna most definitely thought Sechra was a unique child. Her determination and strength of mind were amazing. She had been through a lot in her young life, things that would have turned others mad. Instead, she turned it out to art. Sechra had turned into quite the sculptor in her teens, continuing on to amaze and confound her family, acquaintances, and then the art world, none of which had never seen such hideous visions, let alone imagine them. Karuna Danesti felt the evil in Sechra’s work and knew it had to be out in the world as well. That was what Sechra’s work was saying. No one noticed the sinister nature within her sculpture, least of all Sechra, until it was too late. Then all hell breaks loose!

Papers From Overlook-House

The Secret Papers of Madame Olivetti Back in print after nearly fifty years—the acclaimed fiction debut of novelist H. L. Humes, co-founder of The Paris Review “Immensely intelligent and energetic, intensely dramatic and melodramatic, heroically overwritten yet sharp, insightful, and precise, The Underground City is an astonishing book by a writer of abundant gifts whose resurrection is long overdue.” -Peter Matthiessen It is the late 1940s and Paris is in turmoil. A man named Dujardin is sentenced to death for treason, sparking general strikes and threats of riots across the city. In the meantime, John Stone, a war-weary American and former secret agent, finds himself being investigated as a suspected Communist. What has brought these two men to their fates? H.L. Humes spins a thrilling account of the French underground during the last years of World War II, and the events that lead to the Dujardin affair. His many memorable characters include Adriane, loved by both Stone and Carnot, a fanatic Communist; Bruce Sheppard, the American ambassador to France, a statesman of vision and compassion; and Solange Récamier, the sophisticated young Parisian widow who finds meaning in trying to salvage Stone’s broken life. The Underground City displays H.L. Humes’s youthful literary skill and a striking capacity for fast-paced narrative. This is a brilliant tour de force. “A major achievement . . . [The Underground City] attains its full stature in poetry and truth. . . . [This is] many-sided, absorbing novel, written on a grand scale, that holds the reader’s attention from the first to the last of its many pages.” -New York Herald Tribune “Magnificent . . . [The Underground City] has verisimilitude and scope, action and depth of emotion.” -Chicago Tribune “A work of power, maturity and distinction.” -Newsweek

Papers

Anthropological Papers of the American Museum of Natural History "This book is very tough." - President Donald Trump The Bush Crime Family smashes through the layers of lies and secrecy that have surrounded and protected our country’s most successful political dynasty for nearly two centuries. New York Times bestselling author Roger Stone lashes out with a blistering indictment, exposing the true history and monumental hypocrisy of the Bushes. In Stone’s usual “go for the jugular” style, this is a no-holds-barred history of the Bush family, comprised of smug, entitled autocrats who both use and hide behind their famous name. They got a long-overdue taste of defeat and public humiliation when Jeb’s 2016 presidential bid went down in flames. Besides detailing the vast litany of Jeb’s misdeeds — including receiving a $4 million taxpayer bailout when his father was vice president as well as his startlingly-close alignment with supposed “enemy” Hillary Clinton — Stone travels back to Bush patriarchs Samuel and Prescott, right on through to presidents George H. W. and George W. Bush to weave an epic story of privilege, greed, corruption, drug profiteering, assassination, and lies. A new preface to this paperback edition features explosive information, including the family’s Machiavellian plan to propel Jeb’s son George
Prescott Bush forward as the family's next political contender. The Bush Crime Family will have readers asking, “Why aren’t these people in prison?”

Melibœus-Hipponax. The Biglow papers, ed. with an intr. &c. by Homer Wilbur Gideon the Ninth is the first book in the New York Times and USA Today Bestselling Locked Tomb Trilogy, and one of the Best Books of 2019 according to NPR, the New York Public Library, Amazon, BookPage, Shelf Awareness, BookRiot, and Bustle! WINNER of the 2020 Locus Award and Crawford Award Finalist for the 2020 Hugo, Nebula, Dragon, and World Fantasy Awards “Unlike anything I've ever read.” —V.E. Schwab “Lesbian necromancers explore a haunted gothic palace in space!” —Charles Stross “Deft, tense and atmospheric, compellingly immersive and wildly original.” —The New York Times The Emperor needs necromancers. The Ninth Necromancer needs a swordswoman. Gideon has a sword, some dirty magazines, and no more time for undead nonsense. Tamsyn Muir's Gideon the Ninth unveils a solar system of swordplay, cut-throat politics, and lesbian necromancers. Her characters leap off the page, as skillfully animated as arcane revenants. The result is a heart-pounding epic science fantasy. Brought up by unfriendly, ossifying nuns, ancient retainers, and countless skeletons, Gideon is ready to abandon a life of servitude and an afterlife as a reanimated corpse. She packs up her sword, her shoes, and her dirty magazines, and prepares to launch her daring escape. But her childhood nemesis won't set her free without a service. Harrowhark Nonagesimus, Reverend Daughter of the Ninth House and bone witch extraordinaire, has been summoned into action. The Emperor has invited the heirs to each of his loyal Houses to a deadly trial of wits and skill. If Harrowhark succeeds she will be become an immortal, all-powerful servant of the Resurrection, but no necromancer can ascend without their cavalier. Without Gideon's sword, Harrow will fail, and the Ninth House will die. Of course, some things are better left dead. THE LOCKED TOMB TRILOGY BOOK 1: Gideon the Ninth BOOK 2: Harrow the Ninth BOOK 3: Alecto the Ninth At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Sessional Papers - Legislature of the Province of Ontario NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

The Stone Monkey Orphaned by the Border Wars, Alina Starkov is taken to become the protegée of the mysterious Darkling, who trains her to join the magical elite in the belief that she is the Sun Summoner, who can destroy the monsters of the Fold.
Stone Girl Bone Girl A Hudson Booksellers Staff Pick for the Best Books of 2013 One of Publishers Weekly's Top Ten Spring Science Books A Bookshop Santa Cruz Staff Pick Dinosaurs, with their awe-inspiring size, terrifying claws and teeth, and otherworldly abilities, occupy a sacred place in our childhoods. They loom over museum halls, thunder through movies, and are a fundamental part of our collective imagination. In My Beloved Brontosaurus, the dinosaur fanatic Brian Switek enriches the childlike sense of wonder these amazing creatures instill in us. Investigating the latest discoveries in paleontology, he breathes new life into old bones. Switek reunites us with these mysterious creatures as he visits desolate excavation sites and hallowed museum vaults, exploring everything from the sex life of Apatosaurus and T. rex's feather-laden body to just why dinosaurs vanished. (And of course, on his journey, he celebrates the book's titular hero, "Brontosaurus"—who suffered a second extinction when we learned he never existed at all—as a symbol of scientific progress.) With infectious enthusiasm, Switek questions what we've long held to be true about these beasts, weaving in stories from his obsession with dinosaurs, which started when he was just knee-high to a Stegosaurus. Endearing, surprising, and essential to our understanding of our own evolution and our place on Earth, My Beloved Brontosaurus is a book that dinosaur fans and anyone interested in scientific progress will cherish for years to come.

The Underground City A widowed Lily comes to France hoping to make sense of her life, entrusting all of her secrets to Madame Olivetti, her aged manual typewriter, and enjoying the companionship of the seductive handyman who comes to make repairs.

Gideon the Ninth Discover the story of Mary Anning, the world's best-known fossil hunter. As a baby, Mary was struck by lightning, then as a little girl she found a fossilised sea monster, the most important prehistoric discovery of its time. This spectacular tale of a little girl who dared to be different and who followed her dreams will inspire young children. Beautiful illustrations and narrative text help children to learn how Mary discovered new fossils - and how her observations rocked the natural history world. Be inspired by Mary's work as a woman in the field of science - especially as her achievements weren't recognised until after her death. Perfect for kids interested in dinosaurs and rocks, and for parents looking for strong female role models in science. If you liked this, you might like the Anholt's Artists series.
